ABOUT ME

I love coding — it's what I enjoy, not just what I do. With nearly 3 years of experience, I build clean, responsive UIs with React and Tailwind CSS, and enjoy working across the stack with Next.js, Node.js, and Remix. I thrive in collaborative teams, sharing ideas, supporting others, and constantly learning.

EXPERIENCE

Software Developer | June, 2022 – present

Distronix

- Developed and maintained software applications using React and Next.js.
- Collaborated with cross-functional teams to design user-friendly interfaces.
